License Number D.O. 0153**

**Consent Order**

Pursuant to R.I. Gen. Laws §5-37-5.2, 1956, as amended, (2002 Reenactment) a notification was received by the Board of Medical Licensure and Discipline regarding Augustus Marsella, D.O. ("Respondent"). This matter was referred to an Investigating Committee of the board for review and recommendation. The following are findings of fact and conclusions of law:

**FINDINGS OF FACTS AND CONCLUSIONS OF LAW**

1. The Respondent is a physician who has been licensed to practice medicine in Rhode Island since 1948. His primary area of practice is in the treatment of obesity. His primary practice location is 712 Oaklawn Avenue in Cranston.
2. The Respondent had previously been sanctioned with a Reprimand and directed CME by the Board on 3, July 2001 for "using glass syringes for injections given in his office. The syringes were later sterilized and re-

used and the needles were disposed of in accordance with the rules and regulations relating to medical waste...The acceptable standard of care mandates use of disposable needles and syringes...”

3. The Respondent has since used disposable syringes for injections given in his office, but has re-used them after an in-office sterilization procedure that includes a 48 hour 90% alcohol submersion and water rinse. This procedure does not conform to acceptable standards of practice.
4. Respondent failed to conform to the minimal standards of acceptable and prevailing medical practice for his use of disposable syringes in this manner in violation of § 5-37-5.1(19) .
